**Submitting your project: PDF**

Overview: In order to submit your project for peer review, you must save it as a PDF, select the correct pages, and adjust print settings for best view. These instructions will help you to do so.
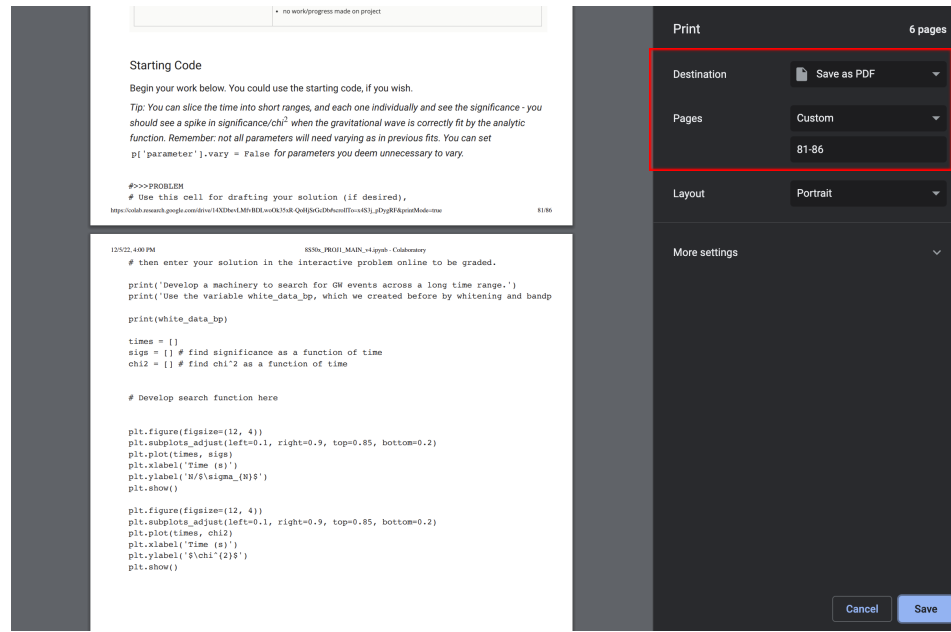

1. **Print as PDF**
   a. Colab Notebook: File -> Print

   b. Jupyter Notebook: File -> Print

2. Save <u>only</u> relevant pages
   a. "Save as PDF" the pages that correspond to PROJ1.5 OR copy your project notebook and delete the irrelevant cells.

3. Adjust settings for best view
   a. Make sure to toggle "Print backgrounds" to make code cells stand out.
   b. Remove head/footer information to omit the path to your document.
